

**Assignment 6A - Low-Fi Prototype****Prototype****Design Goals**

This new shopping cart page inherits the overall structure of the other pages on the website for better consistency. The head of the page informs the users that they are on the shopping cart page. Information of the item are shown in the middle area of the page, entailing the quantity, preview picture, configuration, and the total price of the item. Users have the option to edit their item directly in this page, as well as adding more items to the cart or checking out using the buttons provided at the bottom of the page.
